#### WORK ON KINCORA.

Assessment Levied and Tunnel Will be Pushed to Completion.

The Kincora Mining and Milling.com pany, which was recently incorporated, is the owner of a group of eight min-ing claims in the Beaver Lake Mining ing claims in the Beaver Lake Mining district, Beaver county, Utah. This property adjoins the Newhouse copper mountain property. The development work upon the Newhouse property has been so extensive as to uncover immense ore bodies carrying large values in copper, gold and silver. The Kincora property from the beginning has shown indications of the same charas r of ores as have been disclosed in the Copper Mountain property. The development work thus far has consisted of driving a tunnel about 20 feet and the ment work thus far has consisted of driving a tunnel about 200 feet and the holders of the stock, the original loca-tors of this valuable property are confident of opening up the ore deposits by a continuation of this tunnel.

To meet the necessary expense, a nall assassment has been levied and he work of driving the tunnel as far as it may be necessary and sinking a winze on the contact, will be prosecut-ed at once. A small block of treasury tock may be disposed of to meet a por-lon of this assessment, none of which will be disposed of for less than 10 cents

It is stated upon good authority that a new smelter is to be erected in the near future upon the Copper Moun-tain property and those interested in this district are confident that the opening of this smelter will be the means of making this camp one of the strongest producers in the state. This pro-perty is conveniently located, being about six miles from the Salt Lake Route and about 13 miles from the min-

The grand jury of White pine county. Nevada, is investigating the affairs of the Dolly Varden Mining company, whose ground was recently sold from under it. The stockholders contend that plenty of money was paid into the treasury to cover the option on the property.

Representatives of the Lost Packer Mining company will shortly meet with the various county commissioners and interest them in improving the road along which the Lost Packer will have to haul are to the smelter. The proposed road will open up the Idaho country about the mine in a manner that will assist the farmers there and will give easy access to a rich country.

|   | The south drift in the Iron Blosson has passed through the Sloux-Ajaz fault and is now ploughing its was through ore equally as rich as tha found nearer the shaft. According to a mining engineer who visited the property Thursday, it was when the drift run into this barren spot that the craze to sell started. This was found to be 15 or 20 feet wide, but from now on it is understood that there is no reason to believe the extension of the Colorado ore shoot will pinch out. It seems almost certain that Uncle Jesse Knight's prediction that Iron Blossom would develop into the biggest mine in Tintie will come true. |

Signs of Weakness Largely Due To Profit-Taking by Speculators.

#### ADVANCES MANIPULATED.

In Interest of Those Desirons of Liquidating-Money Market Tranquil And Somewhat Firmer.

New York, April 17 .- Prices of stocks

have moved with some uncertainty and irregularity during the week. Speculative profit-taking was largely responsible for signs of weakness, and the sharp advances in special stocks were regarded as being fostered to facilitate this liquidation. There was a perceptible growth of an anxiety over the promise of grain crops. The excited speculation in the wheat market and reports of backward development of winter wheat and unfavorable weather for the planting of spring wheat were factors in this anxiety. Reports from the steel and copper trades are encouraging. Increase in idle freight cars in the last half of March made a bad Impression. The money market remained tranquil, but slightly firmer in

Free offering of stocks at the opening today carried prices downward throughout the list. The grangers and throughout the list. The grangers and transcontinental stocks were most conspicuous in the decline. Great Northern preferred and St. Louis Southwestern preferred fell 1 and Union Pacific, St. Paul, Southern Pacific, Atchison, Reading, Amaigamated Copper and Westinghouse Electric a substantial fraction. A rise of % in Norfolk and Western was the only notable exception to the weakness.

Irregularity developed after the opening dealings, some stocks rallying and others decilining before the tendency became uniformly upward. The re-

became uniformly upward. The re-Hill and Harriman stocks to above yes. terday's close, but the rise was not firmly held. Central of New Jersey hardened 5 points; Adams Express, Na-tional Lead, 14 and Rock Island pre-ferred and Mercantile Marine preferred

and Hocking Coal 1.

During the decline Atlantic coast line got down 24. The market closed strong and active. Strength in the coalers prompted shorts to cover and the prompted shorts to cover and the market rallied strongly to above yesterday's closing. The upward flight in Central of New Jersey reached 17 points, Reading gained 3; Delaware & Hudson, 14; Union Facific, Northern Pacific and Chesapeake & Ohio, 1; National Land.
